DR. WYETH'S COMING.

Another Grand Army Post Protest—How He Came to Be Invited.

The tempest caused by the invitation of the State Medical Society to Dr. Wyeth, continues unabated. Anderson Post, G. A. R., last night followed the example of Chapman Post and unanimously adopted a resolution protesting against the action of the State Medical Society in inviting Dr. Wyeth to attend the meeting of the society which will be held in this city on the 12th and 13th inst.

"The facts with reference to the invitation of Dr. Wyeth," remarked a prominent physician to the reporter yesterday, "are that last fall, while Dr. Edwin Walker, of Evansville, president of the society, was in Richmond, Va., he met a number of leading surgeons, among them Dr. Wyeth, of New York, and invited them to attend the meeting of the State society this month. Three or four of them accepted the invitation, among them Dr. Wyeth. Dr. Walker was afterwards in New York, and again met Dr. Wyeth. On this occasion he asked him to favor the society with a paper, and he consented to do so. Other members of the Indiana State Medical Society have since been in New York, and have pressed Dr. Wyeth and others to attend. So far as Dr. Walker and the other members of the State Medical Society are concerned, the thought of Dr. Wyeth's coming would in any way be objectionable was never entertained. In fact, there never would have been a talk whatever if it had been treated in the spirit it properly deserves. Dr. Wyeth is coming to read a scientific paper on a scientific subject before a scientific society. It is not a public meeting to which the public is invited and Dr. Wyeth's paper is not a popular affair. I have conversed with a number of old soldiers and with a number of physicians who were surgeons in the army in reference to this matter. I do not intend Dr. Wyeth's statements in the Century regarding the treatment of prisoners at Camp Morton. They are generally condemned, but physicians fail to see the relation that his statements or opinions there expressed have with the present status of 'The Surgery of the Appendix Vermiformis,' which is the subject of the paper that Dr. Wyeth is upon the programme to read before the Indiana State Medical Society."

The Indianapolis Surgical Society met last night, and decided that it would not be advisable, in view of the short time between now and the meeting of the State Medical Society, to undertake to arrange for a banquet. The banquet which was to have been given by the State Medical Society has also been given up.

Building Permits.

Building permits were yesterday issued to the following persons: W. J. Walker, addition, 8 Reid street, \$75; Mrs. S. F. McGuffin, frame house, Camp street, \$1,200; Susan Niedlander, frame house, Merrill street, \$2,100; Mrs. B. Trot, double brick house, Bird street, rear 163 North Illinois, \$1,800; Jacob F. Smith, frame house, 69 Clinton street, \$600; C. S. Jones, repairs, 40 Broadway, \$200; W. P. Chase, frame cottage, Tallman avenue, \$600; Charles Hagerhorn, 78 and 80 Virginia avenue, \$500.

Woman's Council Meeting.

There will be a meeting of the executive committee of the Indianapolis Woman's Council at the Proprium, this afternoon, at 3 o'clock. This committee is composed of the officers of the council, together with the presidents of all societies of women who have or who wish to join the local council.

Tippecanoe Club.

The Tippecanoe Club will meet Wednesday, at 2 P. M., at the Mayor's court-room. This may prove the last meeting of the club, as a number of members favor disbanding.

New side-boards at Wm. L. Elder's.

THEY MUST WAIT A WHILE

Council Fails to Make the Further Appropriations Asked for Just at Present.

Rather Stinging Slap at the Board of Works—Taggart's Little Back Bill—Another Baking-Powder Ordinance Introduced.

NO APPROPRIATIONS MADE

Democrats Will Wait While Before Giving More Credits to the Boards.

Shortly before the Council convened, last night, Mr. Rassmann and the other Democratic members of the finance committee held a brief caucus and decided not to call up the ordinance appropriating money to the city departments for fear the Council would not pass it. When the finance committee met the other afternoon it had under consideration an appropriation of \$500 asked for by the Board of Public Works to pay the salary of the sprinkling inspector for five months, or until Sept. 1, when the annual appropriations are made.

As the appointment of an inspector of sprinkling was an outrageously illegal one, the Republican members of the finance committee, Messrs. Cooper and Gasper, refused to grant the appropriation, and from Mr. Rassmann the request received but lukewarm support. He said too much politics was circulating throughout the war and wool of the "business administration." The Democratic members, however, agreed to report in favor of the appropriation of \$500, illegal as it would be, but the Republican members refused to sign the report. The latter also refused to sign any report recommending an appropriation of \$100 for Judge Bunker's court in case of change of venue, as being also contrary to the provisions of the charter.

It had been the intention to call the appropriation ordinance up last night, but after the conference it was decided to hold it over. The Board of Public Works held a meeting yesterday afternoon to allow bills for the past month. The trial balance made by Clerk Parker April 30 shows the following appropriations to the credit of the various funds:

Street repair pay-roll, \$19,902.87; street repair accounts, \$4,620.78; city civil engineer, \$4,975.48; parks, \$1,598.02; city hall, \$437.25; public buildings, \$200; furniture, \$1,000; repairs, \$1,200; blank books and stationery, \$1 cents; printing and advertising, \$2,955.49; street openings and vacations, \$806.22; Tomlinson Hall janitors, \$1,327; Tomlinson Hall accounts, \$482.72; water, \$13,254.72; repairs to Pogue's run, \$10,000; incidental expenses, \$391.05; streets and alleys, \$85,039.33; sewerage, \$1,022.45; electric, \$3,800; fire, \$1,000; wells, 93 cents; bridges, \$4,555.32; Illinois-street tunnel, \$300; public light, \$2,544.72; city garage and dump, \$1,533.84; repairs to guarantee fund, \$1,396.00. Total, \$188,440.58. This balance does not include the amount of bills allowed yesterday.

SLAPPED THE BOARD OF WORKS.

Council Takes the Stand that Its Action on South Street Was Illegal.

Councilman Olaf R. Olsen last night submitted to the Council a long resolution concerning the South-street and Fletcher-avenue improvements that have already caused so much trouble. The resolution began by detailing the action of the Board of Public Works in ordering these two thoroughfares improved with asphalt, the remonstrances which were filed against asphalt and the petitions for brick, and the subsequent orders of the board changing the resolutions from asphalt to brick (after the advertisements for asphalt had been made) before the sixty days necessary for the advertisement of an improvement had expired.

Mr. Olsen is opposed to a brick improvement and in favor of asphalt. His claim is that after the board had adopted resolutions for an asphalt pavement, and there was a two-thirds remonstrance, that the resolution must either die or go to the Council for action, where it would require a two-thirds vote to pass; that the board had no legal right to change its order before the sixty days were up. The statement was also made that contractors felt about bidding on the job, and that since the order was changed, Mr. Olsen asked that the matter be referred to the city attorney for an opinion.

When the clerk had finished reading the resolution the awful Olaf moved that it be adopted. Last moved to lay the motion on the table. Olsen then explained his position to those who did not understand it. He said it was not a question of an asphalt or a brick pavement, but as to the legality of the action taken by the Board of Public Works. Thus spoke the disgraced Olaf. The motion to lay on the table was lost by a vote of 12 to 5, and the resolution was then adopted by a vote of 10 to 1, Laus voting against it.

This is the stand attorney Wishard, who represented Mr. Olsen, took when the matter was up before the board, and at that time he stated that the question would be tested in the courts.

Board of Safety.

The Commissioners of Public Safety held their regular monthly meeting yesterday morning. The commissioners received a letter inviting them, the city officials, deputies, fire and police forces, and every body connected with the city government, to take part in the Memorial day services. Superintendent Colbert preferred charges of neglect of duty against patrolmen Jackson, Settle and Greathouse. He said they had failed to report at 4 o'clock roll-call. The officers were reprimanded, and reinstated.

The reports of the departments under the Board of Public Safety were received. The report of Building Inspector Fletcher was \$35 license issued, with an sworn valuation of \$88,500.30. During the month twenty-four plans were approved, ten chimneys condemned, thirteen chimneys repaired and four wells repaired.

The East marketmaster reported receipts amounting to \$198.50; West marketmaster, \$178.15. The bill and order of the clerk of the board were as follows: Fire force accounts, \$7,110.00; fire force pay-roll, \$7,612.72; police force pay-roll, \$7,780.57; market, \$2,457; total, \$28,445.86.

The police matron's report showed that forty-one females were arrested, six given shelter; total, forty-seven; white, twenty-two; black, eighteen.

The fire chief's report showed one hundred feet of hose worn out and one hundred feet of Eureka brand had burst filling cisterns. There were thirty-two and 261 miles were traveled. The loss was \$1,867.30; insurance, \$23,600.

Superintendent Colbert's report showed \$25,000 during the month. The receipts from cattle impounded were \$257.35. The stolen property recovered amounted to \$300.55.

Gravel Bids.

The Board of Public Works opened bids, yesterday morning, as follows:

Martindale avenue, from the Belt to Brinkman street, grading and graveling—Gansberg & Roney, \$1,050; Fisher & Tallentire, \$1,225; Hadley & Porter, \$1,320; Roney & Dunning, \$1,235; Daniel Foley, \$1,225; John Greene, \$1,235; Thomas Laton, \$1,225.

Bids were held, and the contract will not be let until Robert Martindale gives the board a check to pay the city's share of the improvement.

Clinton street, from Ohio to New York—Hadley & Porter, granite curb, \$2,438; stratified curb, \$2,438; granite curb, \$2,438, and full width, \$4,876; Fisher & Tallentire, \$1,800; Daniel Foley, \$1,638; Roney & Dunning, \$1,600; Gansberg & Roney, \$1,534; T. T. Sheehan, \$1,528. The contract was awarded to Mr. Sheehan.

South-Street People Object.

A number of South-street property-owners called on the Board of Public Works yesterday morning to ascertain why they were compelled to pay 60 cents more per front foot for a five-year guarantee than for an eight-year guarantee. President Condit tried to explain the board's very untenable position. He said the eight-year guarantee was merely talk and that the brick was not as good as the Canton repressed. "It is our intention," said he, "to give you a first-class street, and to do so we must use the best material. This the board has done and the small

THE ARMY OF HOUSEKEEPERS STILL MARCHING ON TO W. H. ROLL'S

OUR PRICES THE LOWEST IN THE HISTORY OF THE CARPET TRADE!

We want you to see our goods, get our prices, and, if so, we know you will trade with ROLL, the Leading and Largest House in the State

difference in cost will not amount to anything." The committee examined the specimens of brick before they left.

Olsen's Change on the Switch Question.

The only Councilman Olsen called on the Board of Public Works, yesterday, and presented a petition on behalf of the Indianapolis Provision Company, asking for another switch on Kentucky avenue. He said the track would run to a meat-house where the people could buy their meat retail at wholesale prices. Mr. Deffrees reminded the lighting-change artist that he was opposed to the Deere company having a switch in that neighborhood. The latter said it was a different thing. People would be benefited. He had a map, but the board could tell nothing about it, and he was told to bring in another.

Mr. Taggart's Little Bill.

Last night Controller William Wesley Woolen sent a communication to the Council relating to the city's portion of the cost of making the tax assessment of 1891. Some time ago Auditor Taggart filed a bill for \$8,573.90 with the Controller for the city's portion, alleging that the city was one year delinquent in its share of the assessment. Mr. Woolen said that after investigation he had found that the Auditor was right, and recommended that the Council appropriate the money. The communication was referred to the finance committee.

Will Pave Georgia.

The board said yesterday morning that before the year is up Georgia will be improved, either with brick or Hayden block. The board said this in answer to the importunities of a property-owner who wants Georgia street, between Delaware and Pennsylvania streets, repaved.

Slaughter-House Ordinance.

The committee on public health, to which was referred the slaughter-house ordinance of Councilman Halloran, introduced some time ago, reported to the Council last night that investigation showed that the subject-matter of the slaughter-house ordinance is covered by an ordinance of 1865 and one of 1885, both of which are still in force. The committee, therefore, recommended that the ordinance should not pass. Later the ordinance was called up and by a unanimous vote was stricken from the files.

City Not Liable.

A communication was received from City Attorney Bailey in which he held that the city of Indianapolis could not be held liable, under the laws, for damages resulting from boiler explosions. The opinion was delivered by request of the Council and was filed away. The boiler inspection ordinance, which was in the hands of the city attorney, was later called up, it being a special order of business for last night, and upon motion was laid over, the city attorney's opinion being filed with it.

Seems Tied Up for Good.

Last night Mr. White wanted to call up his bureau of inspection ordinance, extricate the part relating to an enlargement of the building inspector's powers and have it passed, but there was objection. The matter is jointly in the hands of the committee on public safety and on health. The committees were instructed to report at next meeting.

Suggestion Not Well Received.

The Council received an invitation to participate as a body in Memorial-day exercises. Mr. Rassmann moved that the invitation be accepted, and that the Council walk. Mr. Gasper moved that a special committee of three on arrangements be appointed. The chair was later called, Messrs. Gasper, P. Jasper Ryan and White.

Against Impure Baking Powders.

Last night the Council Mr. Rassmann introduced an ordinance to prevent in this city the sale of impure baking powders, containing cream of tartar and other substances said to be deleterious. It was referred to the committee on public health.

Ordinances Approved.

A communication from Mayor Sullivan, received by the Council last night, stated that he had approved the ordinances appropriating money with which to pay temporary loans, and also the electric-light ordinance.

Merry-Go-Round Ordinance.

When the committee on public morals was called, Chairman White said he would have to ask for more time in which to prepare a report on the ordinance licensing merry-go-rounds. It was granted.

Wants a Prettier Name.

Councilman Linn last evening introduced an ordinance to change the name of Peru street, north of Massachusetts avenue, to Cornell avenue. It was referred to the committee on streets and alleys.

Board of Works Notes.

Sixteenth street, between Meridian and Illinois, and Chadwick street, between Morris and Wilkins, have been ordered graded and gravelled.

A heater costing \$175 has been ordered for the engine at the No. 3's on Prospect street.

The Brush Electric-light Company was notified by the board that the six months in which it is to complete its plant begins May 3.

The fire chief reported a fire hydrant ready for use at the corner of New York and Missouri streets.

City Engineer Mansfield will investigate the necessity of grading and graveling Detroit avenue from Michigan to Bates street.

The street commissioner was ordered to clean Chesapeake street, between Pennsylv-

ania and Delaware, and fill in the chuk-holes.

The board ordered a sidewalk on Mississippi street between Twelfth and Thirtieth streets.

Nicholas McCarty was granted permission to grade and gravel, at his own expense, the alley west of Chadwick, between Wilkins street and the alley south.

Estimates will be made on the cost of painting the engine-houses, but the work will not be done unless the Department of Safety secures an appropriation.

City Engineer Mansfield has been ordered to withhold from Foley Bros. all licenses until they have properly put in condition the water trench made in connecting mains with Mayor Sullivan's house.

Councilman McGuffin called the board's attention to the condition of West North street between Blackford and Patterson, and Indiana avenue from the canal to the bridge over Fall creek. Referred to the street commissioner.

Councilman Colter asked that Georgia street, between New Jersey and East Erie, between Louisiana and South, and an alley between Maryland and Georgia streets be cleaned. It will be done.

The members of the fire department are agitating the question of more pay and have got Superintendent Webster interested.

Final action was taken on improving Missouri street, from Kentucky avenue to Merrill, with brick sidewalks, and Mississippi, from South street to the first alley south, with brick sidewalks.

FIRST CIRCUIT OF THE SEASON.

Paper Already Going Up for Barnum & Bailey—Columbus and Discovery of America.

The advance man for the Barnum & Bailey show arrived in Indianapolis yesterday and the "paper" is already all over the billboards. It will be the first circus of the season, showing on May 30, and it goes without saying it will be the best.

The chief feature of the show this year is Imre Kalfy's great spectacular production, an historical piece, called Columbus and the Discovery of America. Twelve hundred characters are represented, with 300 of the most expert dancers from the leading theaters of Europe. The life of Columbus is illustrated from the period beginning with his residence in Portugal to the successful termination of his voyage of discovery, with all the principal events in Spanish history during that time. The life of the sovereigns, Ferdinand and Isabella, with their brilliant court, are reproduced, with tournaments on foot and on horseback, combats, festival and triumphal processions. The sieges of the ancient cities of Baza and Granada are represented, with the battles between the Spaniards and Moors. The life of the Moorish kings is accurately shown, with the feasts, revels, dances, fetes, and other amusements, in the famed palace of the Alhambra. The dress and weapons of the soldiers, granades, nobles, warriors and cavaliers, are all historically correct. The scenery, costing \$75,000, shows the walls, towers, drawbridges, palaces, gates, battlements and monuments of the old cities of Spain, while the costumes of the dancers, ladies of the court, the nobles, priests, friars and military, are said to have cost \$250,000.

Marriage Licenses.

The following were licensed yesterday to marry: Ollie McCarty and Manie M. Brown, James Riley and Ellen McCoy.
